

PROJECT DETAILS:

Client: Crosby Lendlease
Contract Value: £2,800,000
No. of Pods: 579
Specification: Grohe and Kohler
Architect: Aedas Architects

Greenquarter 6 - Manchester

Working with the client, Britdpace undertook the design, manufacture, delivery, installation and final line and levelling of 579 pods for residential apartments.

Two different pods were required for the project, a full bathroom pod and an en-suite shower room pod.

We manufactured a proto-type of each pod allowing the client to walk in and see exactly what the finished product would look and feel like.
